**INSTRUCTIONS:** Please use this form to enter a desired caption for the pictures you are submitting. If you do not wish to include a caption for any of the pictures, simply leave that line blank. For your convenience and to protect your pictures from not having to write on the back, we have included a pack of Post-It notes. Please attach a numbered Post-It note, corresponding to the photo number on the caption sheet, to the back of each picture. This identifies the photo with the caption.

We will assume that photographs of a single individual are that of the bride or groom, but you should identify yourself by name if it is an infant picture. If any photographs include more than one individual, we ask that you identify the bride or groom by circling the appropriate number on the right side of the caption line indicating the row number and position in the photo from left to right. We must be able to identify the subject to make effective use of various transitions from one picture to the next. We encourage you to disregard identification in the case of large “group” photos.

As part of your finished presentation, *GrafXpress* will select 2 or 3 soundtracks (depending your choice of plans) from our music library and add them to your DVD. **If you wish to have different songs performed by specific artists, *GrafXpress* will gladly substitute your choices if you provide us with the original factory CDs (we will not use MP3 files because they are compressed files). We cannot use CDs “burned” from an original on a computer.** Your CDs will be returned to you with your photographs. If you wish to supply us with your own music selection, please indicate the song titles below:

Music Selection #1: \_\_\_\_\_

Music Selection #2: \_\_\_\_\_

Music Selection #3: \_\_\_\_\_
